

God was about to take the Israelites into the Promised Land, but there were seven nations in their path that were bigger, stronger, and more powerful than they were. Moses didn't know what they were going to do. In the natural they could never defeat them, but God told them, "You don't need to fight this in your own strength. I am going to go before you and clear the path. I am going to defeat your enemies, so all you need to do is walk in and take the land."

We all face situations where the odds are stacked against us, and are then inclined to think, "This sickness, this debt, this addiction, these people coming against me are much more powerful than I am." Don't be fearful or worry. God is going before you right now, clearing the path. He is making things happen that you couldn't possibly make happen yourself. On your own you may be outnumbered, but know that you are not on your own. The God who created and controls the Universe says He will take care of your enemies!

Deuteronomy 7:1 "When the Lord brings you into the Promised Land, as He soon will, He will destroy the seven following nations, all greater and mightier than you are."
