

King Balak of the Moabites offered a prophet named Balaam a lot of money to put a curse upon the Israelites, but God told Balaam, "What I have blessed, you cannot curse." When Balak continued to press Balaam, not only did Balaam refuse, but God had him start speaking blessings over the Israelites, about how they would succeed and accomplish great things.

Notice that when God puts the commanded blessing on you, it doesn't matter what somebody else says or does. All that matters is the Creator of the Universe put His blessing on you, and everything else is of no effect. People are powerless to change the blessing on your life. When Satan tries to curse your future with negative words and negative thinking, do like Balaam. Start prophesying victory, prophesy favour, prophesy health, prophesy abundance. When you walk in obedience, God's blessings *will* manifest in your life!

Numbers 24:10 "Then Balak's anger burned against Balaam. He struck his hands together and said to him, "I summoned you to curse my enemies, but you have blessed them these three times.""
