

In today's Scripture verse the prophet Amos was saying there is coming a time when a man will be out plowing the field and sowing the seed, but the harvest is coming up so fast, the growth has so sped up that the harvest pops up as soon as he sows the seed. The plowman can't keep up with it. Typically, in those days, the plowman would have to wait seven to eight months for the harvest once he had sowed the seed, but Amos said the day is coming when it is going to be simultaneous. As soon as you sow the seed, the harvest will begin to spring forth.

We are living in the day Amos talked about. You are sowing the seed, doing the right thing. It should take months, even years, but as soon as you sow, the harvest is there. Blessings are overtaking you, favour that you didn't deserve. It's not the usual process. It's not going to be what has been in the past. God is in the acceleration business.

Amos 9:13 ""Behold, the days are coming", says the LORD, "When the plowman shall overtake the reaper, and the treader of grapes him who sows seed; the mountains shall drip with sweet wine, and all the hills shall flow with it.""
