

In today's Scripture verse David says that even in a down time, even in a time of famine, the righteous will see increase and favour. Here is the key: As long as you stay close to God, as long as you keep Him first place, you are connected to a supply line that will never run dry. Even in a slow economy, God will cause clients to find you. Even when the medical report says no way, you are connected to a supply line filled with health, wholeness, and restoration. When you don't see how you can accomplish your dreams, don't get discouraged. You have a supply line connected with good breaks, the right people, ideas, and creativity.

God's face is shining down on you right now. You have been called out, set apart, and chosen to live a distinctively favoured life. Now do your part. Pray bold prayers. Take the limits off of God. Believe for your hopes and dreams. If you do, God will show out in your life in amazing ways.

Psalm 37:19 "They will not be disgraced in hard times: even in famine they will have more than enough."
