

In the Scripture, God brought Joseph through many years of difficult circumstances into a strategic position of influence in Egypt, so the Israelites would be able to survive a severe famine. Some of the difficult things we go through and don't understand are the result of God positioning us to carry out His purpose. In the difficult times, you need to trust Him, knowing that He is ordering your steps.

Like Joseph, God is going to send you into strategic positions of service, influence, and leadership. We are not called to run away from the world system; we are called to infiltrate the system. God is raising up more Josephs to run media networks, to serve in the Government, to find cures for diseases, and to lead in universities, business, real estate, and technology. Your Father's world is a big world. He is going to position you higher than you dreamed. It is because He can trust you. He knows you will honour Him. You will handle the success with humility, live with integrity, and be a person of excellence.

John 20:21 "Again Jesus said: "Peace be with you! As the Father has sent Me, I am sending you.""
