

In the Bible, God has given us hundreds of powerful promises that say we will live an abundant life, we will be healthy and whole, we will experience favour, increase, restoration, etc. However, as encouraging and inspiring as the promises are, on their own they won't do you any good. They are just very encouraging words. You need to add in the one ingredient that activates the power, that makes the promises come alive and become what God says, and that is faith.

God's promises can bring healing, can restore relationships, can catapult you to a new level, but you won't see any change until you ignite them. You are on the verge of God doing something you have never seen, so start mixing in faith with His promises today. Faith ignites the promises, and powerful things happen. When you believe, angels go to work on your behalf. When you believe, supernatural doors will open. When you believe, you will defeat giants. When you believe, you will accomplish dreams much bigger than you thought possible.

Hebrews 4:2 "...but the Word which they heard did not profit them, not being mixed with faith in those who heard it."
