

You may have a dream of one day having your own business or ministry, but right now you are working for someone else. You are in a proving season. There is a very wise saying: "You need to carry a crown before you can wear one." In other words, you need to do all you can to serve someone else with excellence, help build their dream and be successful.

Today's Scripture verse says that if you are not faithful to give your best where you are, the door won't open for you - "who will give you what is your own?" Every day when you go to work and give it your all, every time you sing in the choir, every time you help your friend with their project, you are being faithful to another person's dream. You are showing God that He can trust you with your own.

God has a crown for you. He wants to take you higher, to give you opportunities and influence like you have never seen before. The question is, are you helping somebody else succeed?

Luke 16:12 "If you have not been faithful with what belongs to someone else, who will give you what is your own?"
