

Sometimes we are frustrated because we are trying to control things that only God can control. We are trying to figure something out that there is no answer to right now. That is when we get frustrated and cannot sleep at night. The good news is, God doesn't ask us to figure everything out. You need to know what your job is, and what God's job is. Your job is to believe, your job is to thank and praise God, your job is to walk in obedience. God's job is to work things out that you cannot work out. You are not on your own. The Creator of the Universe is working out His plan for your life. His job is to open doors you cannot open. His job is to part Red Seas. His job is to heal sick bodies.

Are you frustrated because you are trying to do God's job? Take the pressure off. You don't need to try and make everything happen. You just need to stay faithful, keep being good to people, and keep God first place. Your time is coming. God *always* works out His plans.

Psalm 138:8 "The LORD will work out His plans for my life - for your faithful love, O LORD, endures forever."
