

The enemy tries to convince us that there is nothing special about us, and that we have too many obstacles and have made too many mistakes to ever leave our mark. But we don't realize who we are. Today's Scripture verse says that God has enabled us to share His nature - we are His offspring. As a child of Almighty God, you have His spiritual DNA. In your seed is favour, creativity, courage, and new levels. You cannot share in God's DNA and just be average. That seed will override challenges and propel you where you cannot possibly go on your own.

If you are going to reach your potential, you need to know you are good seed. You have purpose, destiny, and greatness. You may have made mistakes and come from negative circumstances, but that doesn't change your seed. Don't let how you were raised, what you didn't get, or any dysfunction convince you that you are not up to par, and that you cannot do something great. Because you are good seed, you are still going to shine, you are still going to blossom.

2 Peter 1:4 "Because of His glory and excellence, He has given us great and precious promises. These are the promises that enable you to share His divine nature and escape the world's corruption caused by human desires."
