

While we don't know what wrongs mentioned in today's Scripture verse were done by Alexander to the apostle Paul, it is significant that what seems like a small detail would be left in the Scripture. God had it recorded so we would know how to respond when we go through something that is unfair, when we have been wronged, when people take advantage of us etc. If you don't understand that God *will* settle your accounts, you get frustrated, try to get revenge, and manipulate things. Paul understood that you need to let God do the payback and settle your accounts. You need to trust Him when it is not fair, keep honouring Him, knowing that justice *will* eventually be served. Jesus is your Vindicator.

Don't have a victim mentality. Stop losing sleep over what someone did. Don't give it any more time or attention. Instead of focusing on who did you wrong, what you didn't get, how unfair something was, keep moving forward, being your best right where you are. Start thanking God, knowing that He sees what has happened, and *will* settle your account and right the wrongs.

2 Timothy 4:14 "Alexander the coppersmith did me great wrongs. The Lord will pay him back for his actions."
