

There are many ways Satan tries to intimidate us and keep us from growing and reaching our full potential. You may be intimidated by what someone said about you. Perhaps they told you what you couldn't do or how you are not that talented or gifted. Now those words are limiting your life. You may be intimidated by thoughts of doubt and afraid to step out in faith, thinking of all the things that could go wrong. Or perhaps you have friends who are causing you to compromise, to do things that are blocking your growth. What could you become if you got out from under that intimidation? How high could you go if you made some adjustments?

The good news is that you can still become who you were created to be. You have the life of Almighty God. He created you to rise higher, to be successful, to be confident, to make a difference, to leave your mark. Make the decision to remove whatever is blocking your growth, and you *will* bloom and blossom and see favour, courage, and the boldness to accomplish what God put in your heart.

Philippians 1:28 "Don't be intimidated in any way by your enemies."
