

If the game of chess is used as an illustration, the Lord can see a trillion and more moves ahead - an infinite number. He knows what will happen down the chain of events every time a president is elected, a king is crowned, a leader is assassinated, or a war is started. Every single event, large and small, is simply moving this world closer to His pre-ordained prophetic conclusion.

Sometimes we cannot imagine why God has placed someone in a position of power, but He uses unlikely people to accomplish His will. Just look at the Biblical characters of Nebuchadnezzar, Ahasuerus, and Herod. They were 'chess pieces' in the hands of the Master of history. Stand amazed at God's omnipotence, omniscience and omnipresence!

Proverbs 21:1 "The king's heart is in the hand of the Lord, like the rivers of water; He turns it wherever He wishes."
