

It is so easy to forget who our Heavenly Father is, to forget what He has done for us, and to limit what He wants to do in us and through us. Too many of us think of Him like we think of our human father, who may not have been there for us, who made mistakes and may not have believed in us. That is *not* your Heavenly Father. Your gifts, talents and greatness don't come from your family; they come from Him. When He breathed life into you, He put His spiritual DNA inside you. That is how you can do something no-one in your family has done. That is how you break out of a limited mindset and make a difference with your life.

Because of who your Heavenly Father is, you can defeat giants, accomplish great dreams, break addictions, and set new standards. There is no limit to what you can achieve. There is no obstacle you cannot overcome. There is no financial struggle that can hold you back. Keep believing, keep dreaming, and keep being your best. The greatness He put in you is about to come out.

Galatians 4:6 "Because we are His children, God has sent the Holy Spirit of His Son into our hearts, prompting us to call out: 'Abba, Father.'"
