

Do you have a vision for your life - a God-sized dream and promises from God? It is easy to have complaints about what didn't work out or who hurt us. That wrong vision is going to limit your life. The Scripture says that if you are lacking vision, you have reached your limits, you are focused on what you cannot do, and on how big the obstacles are.

What would happen if you start writing a new vision? Write what God says about you. If you are dealing with an illness, write the vision: "God says He is restoring health to me. I am healthy and whole. I am strong and energetic." If you are believing to pay your car and house off, write the vision: "God says I will lend and not borrow. What I touch prospers and succeeds. I am debt free. I am blessed so I can be a blessing." Keep a new vision in front of you. That is what you are giving permission to come to pass. You will be amazed at where God will take you if you will dare to write the visions down.

Proverbs 29:18 "Where there is no vision, the people perish."
